Dear Mr. Bellout

25X1C8b

In reference to [REDACTED] 24 May 1957, we have no evidence that Route is being developed as a new construction yard for building destroyers and submarines and I agree with your evaluation of the statement to that effect in CIA/RR-9-15. I believe this statement occurred originally in RDP 26 Supplement 1 Part B (page 2-22) dated 1951. This Supplement is now being revised by OII and will omit that item as OII agrees that it is incorrect.

Yours very sincerely,
